Boston, Massachusetts
United States of America

The Pran Nath Fest will be held August 18–19 during the Particles, Strings and Cosmology Symposium, PASCOS04 (August 16–22, 2004), in honor of Pran Nath, Matthews Distinguished University Professor of Physics, for his pioneering contributions in the fields of high energy theory, supersymmetry, supergravity, and unification.

Pran Nath Fest

August 18–19, 2004

Speakers

Richard Arnowitt (Texas A&M University, College Station)
Vernon D Barger (University of Wisconsin, Madison)
Ali H Chamseddine (Center for Advanced Mathematical Sciences, American University of Beirut)
David B Cline (University of California, Los Angeles)
Mirjam Cvetič (University of Pennsylvania, Philadelphia)
Sergio Ferrara (CERN)
Paul H Frampton (University of North Carolina, Chapel Hill)
Mary K Gaillard (University of California, Berkeley)
Sheldon Glashow (Boston University)
Rajan Gupta (Los Alamos National Laboratory)
H V Klapdor-Kleingrothaus (Max Planck Institut für Kernphysik, Heidelberg)
William J Marciano (Brookhaven National Laboratory)
Rabindra N Mohapatra (University of Maryland, College Park)
Hans Peter Nilles (Physikalisches Institut der Universität Bonn)
Jogesh C Pati (University of Maryland, College Park)
Steven Weinberg* (University of Texas, Austin)
Bruno Zumino (University of California, Berkeley)

*Tentative

Fest Chair

Michael T Vaughn
Professor of Physics
